

Firming Treatment Anti-aging Mature skin

PFC Cosmetics presents a specially developed treatment to firm and regenerate mature skin. This protocol includes products that help restore skin elasticity, slow down the aging and counteract the loss of muscle tone. Furthermore, the combination of active ingredients smoothes the skin and treats wrinkles from the inside.

Suitable for:	Mature skin	Skin with loss of elasticity and firmness caused by aging
Key Product:	Splendia Day Cream	Corrects sagging face, moisturizes and helps reduce wrinkles
Contraindications:	None	
Frequency:	We suggest 1 or 2 sessions per week according to professional guidelines	Content of the program: 5 sessions

Protocol	Product	Time (Total 40')
SKIN PREPARATION		
1. Cleanse. Apply cleansing milk on a cotton pad and softly remove makeup from the face till it gets completely clean. On eye and lip area use a specific cleanser.	Hydronatur Cleansing Milk/Sensitive Eye Cleanser	5'
2. Tone. Remove any traces of cleansing milk with cotton.	Hydronatur Tonic	3'

<p>3. Exfoliar. Using suitable brush, spread the exfoliating mask over the face (avoiding eye area), neck and chin. Leave it for 15 minutes and remove using gentle circular motions that will contribute the elimination of dead cells. <i>If the skin requires more intensive renovation, replace the treatment with PFC Glycolic Acid peel.</i></p>	<p>Exfoliating Mask</p>	<p>20'</p> 
<p>4. Tone. Reapply facial toner with a cotton pad to remove any traces of the mask or peeling.</p>	<p>Hydratur Tonic</p>	<p>3'</p>
